Synopsis of Topic:

The draft 7th Edition SIAC Rules was circulated for public consultation in August 2023. Amongst the new mechanisms and provisions, there are a significant number which aim for a faster resolution of disputes. For example, parties can apply for a preliminary determination of issues, use a streamlined procedure for disputes less than \$1 million, submit disputes up to \$10 million to an expedited procedure, expect quicker tribunal decisions on early dismissal applications. Parties referring their disputes to SIAC arbitrations can thus look forward to speedier and more cost effective proceedings. What are these new mechanisms that have been proposed in the draft 7th Edition SIAC Rules? How can we expect construction arbitrations to be impacted? What do we have to do to be better-prepared for construction arbitrations under the new SIAC Rules (based on the current draft)? Attend this webinar to find out!
